

# Feeding Opportunity For Every Student

**An estimated 14 million U.S. children do not get enough to eat.**

Access to healthy, nutritious food is essential for every student to reach their fullest potential; it's the foundation and promise of school lunch in the United States of America. We are committed to ensuring every student is nourished and ready to learn with a variety of personalized programs and resources that are specially designed for your district.

Working in unison with your ongoing food equity efforts, we give you the extra support and operational capabilities to make it easier for students to get the food they need, when and where they need it most.

## Overcoming Food Access Challenges

Our experts will work with you to deeply understand your learning community's specific food access challenges and develop customized programs to overcome them.

over **153M**

*We do whatever it takes to get students the nutrition they need.*

**In 2020, we served over 153 million meals** using innovative food access programs supporting K-12 hybrid and virtual instruction during the global pandemic. Our responses were seamless and encompassed students, families, and communities.

## Access Matters More Than Ever

Equitable access to proper nutrition matters more than ever before. In the U.S., **MORE THAN 50% OF STUDENTS QUALIFY** for free or reduced-cost meals and receive most of their daily calories at school.

# Breaking Through *Barriers*

Food insecurity is a barrier that no student should have to break through alone. Our flexible, student-centered food access programs and support services ensure that every student is well-fed, regardless of their social or economic environment.
